

25 September 1956

MEMORANDUM FOR: Mr. [REDACTED] A

SUBJECT: Visit to [REDACTED] C

Request your approval of my trip to [REDACTED] on 8 October. I will travel with Dr. [REDACTED], TSS. The subject is Brainwashing or Coercive Persuasion. H

My interest in this field dates back a year or two when I assisted our people in obtaining staff work in the brainwashing field prepared in support of the [REDACTED] Commission on prisoners of war. Since that time, I have been involved in the various research interests of [REDACTED] and CIA in this field. Additionally, have been involved in some miscellaneous matters in this field, i.e., (1) the relationship of [REDACTED] responsibilities in interrogation techniques to CIA work in this field, and (2) the conflict between a research proposal which would blow an operation etc. I

CIA has had a research project in the EW field at [REDACTED] for some time. Dr. [REDACTED] has recommended for several months that I be briefed by the [REDACTED] people on their work in order that I may better understand the relationships between TSS and [REDACTED] on the one hand and certain [REDACTED] projects on the other. B I
